

LEARNING INNOVATIVE SOLUTIONS IN SMART CITIES AND ASSURING  
A JOB POSITION AFTER THE SCALE TRAINING PROGRAM

## Project Overview

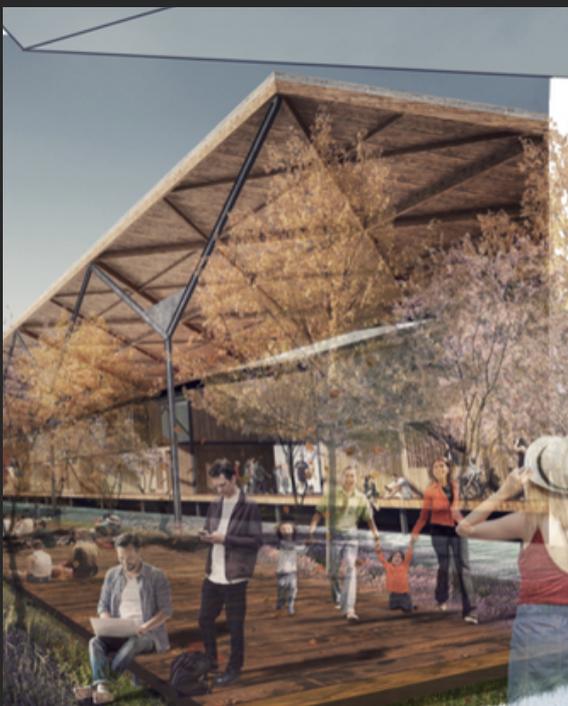

This online course, co-financed by the European Union will allow you to acquire the main transversal competences in the world of Smart Cities working in a multidisciplinary and multinational team. The course will have free registration, a limited number of places and a recognition of 5 ECTS (requested) for those students who pass it.

## SCALE Mobility Programme: Projects Presentation!

Get to know all the projects that will take part on the SCALE Mobility Programme.

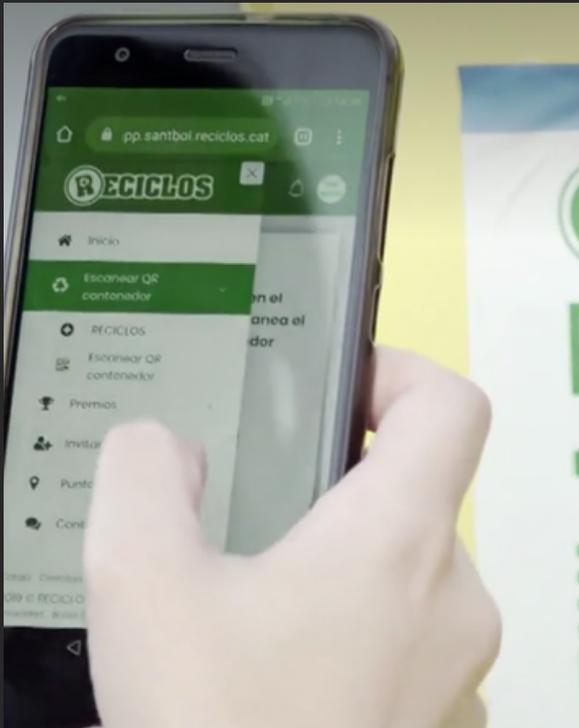

## NIVALIS: Smart Solar City.

NIVALIS is the first ecologically sustainable and intelligent urban development in Spain and an international reference, capable not only of integrating diverse and complementary uses, but also of fostering interaction between residents and visitors and creating a balanced model of cohabitation and co-working through knowledge diffusion and induction of positive conducts.

Smart Cities Advanced Learning

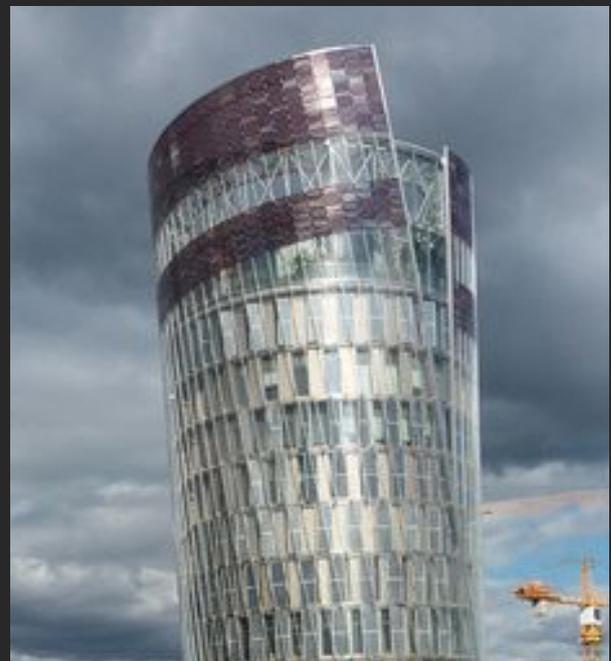

## RECILOS

Its purpose is to demonstrate how technology can help citizens recycle more and better, using incentives and gamification to achieve this goal. In other words, make our recycling habit «digital» and rewarded.

## SMART CITY GRAZ WAAGNER BIRO

A new energy-self-sufficient district will emerge in the former industrial area near the main railway station, close to the cultural venue Helmut List Halle.
